

MASAI MARA NP, KENYA

Duration: **9 days / 8 nights**

Up-to-date dates, prices and included services: moai.ch/masai-mara

Join us for a unique photo tour in Masai Mara during the short rains season. This time offers a special atmosphere, with evocative lighting and fewer visitors, allowing us to capture different shots and enjoy greater tranquillity.

During this photographic adventure, we will explore the beauty of Masai Mara at a time when nature awakens after short rains. Landscapes are coloured by unique lighting, creating a vibrant backdrop for our shots. Wildlife is active, offering us the chance to capture dynamic and unique moments.

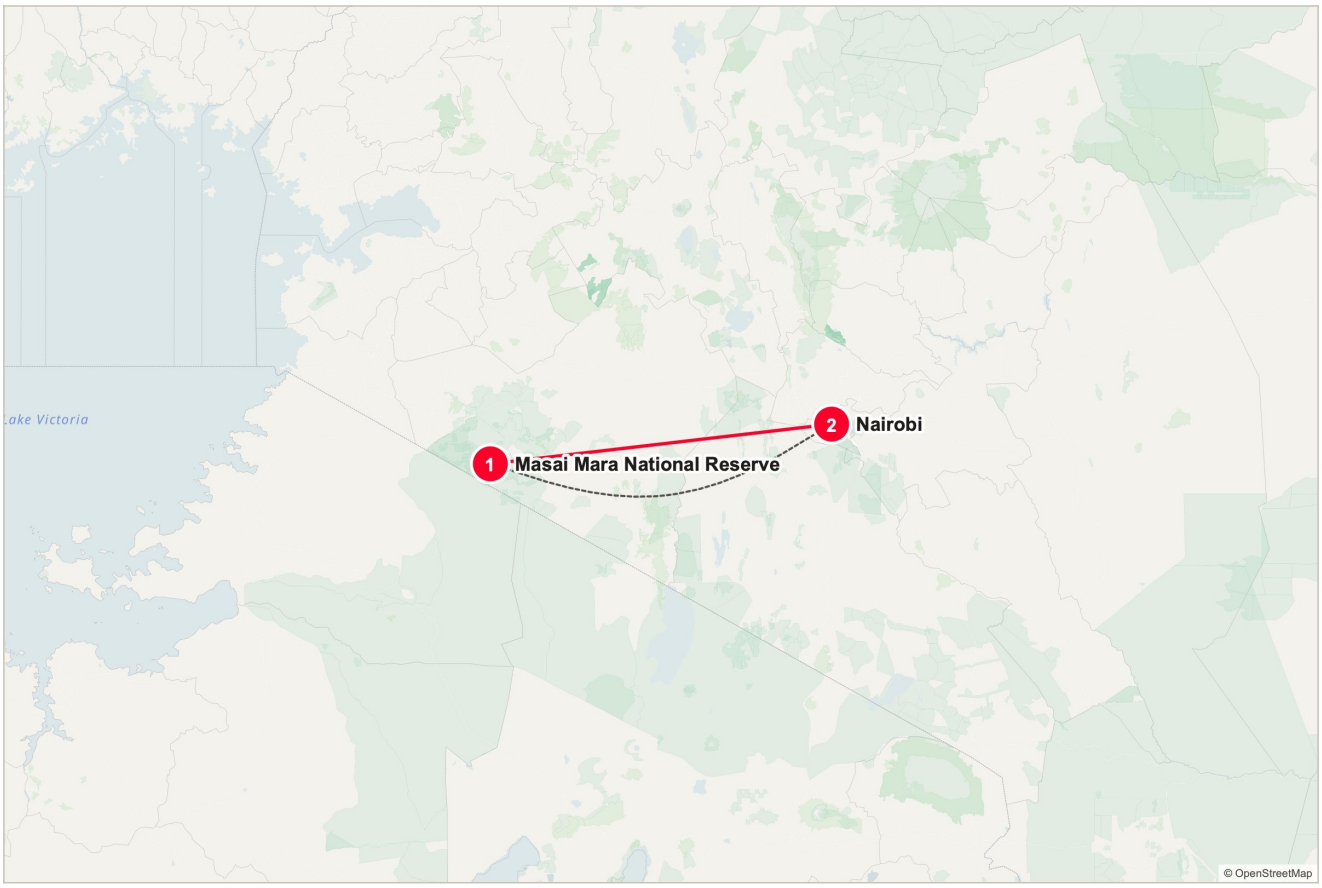

Additionally, with fewer visitors, we will enjoy greater peace and a more intimate experience with nature. We will have the time and space to explore different areas of the park and dedicate ourselves to photography in depth, without disturbances or crowds.

Throughout the journey, we will be accompanied by Masai guides who know the territory and animal habits in depth. They will lead us to privileged sightings, helping us make the most of the photographic opportunities that arise along the way. We will never be more than 3 photographers per vehicle to allow everyone to shoot freely from every side.

This experience in Masai Mara during the short rains season will offer a unique opportunity to capture stunning and captivating photos, enjoying a deep connection with nature and wildlife. It will be an

unforgettable photo tour, enriched by the magic of a special moment in the heart of Africa.

The route

1 **Masai Mara National Reserve**
7 nights · Days 1–7

2 **Nairobi**
2 nights · Days 8–9

Itinerary

Days 1–2

Departure in the afternoon with arrival in Nairobi the following morning. Transfer to Wilson Airport for domestic flights, then a small-plane flight to an airstrip inside Masai Mara (approx. 45 minutes).

Drive to the tented camp (spacious with beds and private bathroom with hot-water shower). Lunch and first safari in the afternoon.

Return after sunset and dinner.

Days 3–7

Departure before dawn with coffee/tea and biscuits, breakfast and lunch during the full-day safari until sunset.

If needed, we can return around 10:30 when the light becomes too harsh (unless tracking cheetahs on a hunt)

to rest and return in the early afternoon.

The evening will be dedicated to photo discussions, also to plan the next day's shots.

As it's a safari, it's unpredictable what we'll see, but we might spot lions, follow cheetahs hunting, search for leopards—everything depends on the Masai guides' reports.

Days 8–9

On our last day in the park, we'll do a short morning safari, then return to camp to change and have breakfast before departing at 10:30/11:00.

The drive to Nairobi is long (over 6 hours) in a van that will pick us up at camp, arriving in the evening at the hotel for a double-room overnight stay and airport transfer.

Morning return flight and evening arrival.

NOTES

Thank you!

To thank you for your interest and for printing or sharing this itinerary, here is a voucher worth **US$ 130** on your next trip. Use the discount code **PDF**.
